## Welcome to the Board 2023 Readers' Choice Awards

*Published March 2023*

*Welcome to the ten-year anniversary of the Readers' Choice Awards (RCA)! It has been amazing to see the RCA's growing momentum in the last decade.*

*When the first RCA took place in March 2014, 3,800 votes were cast, 155 service providers were nominated, and 37 companies rose to the top to receive awards. Fast forward to March 2023, and we counted more than 11,000 ballots cast with 292 service providers nominated, and 204 companies have been recognized as award winners.*

*There are three levels of recognition: Diamond (top), Platinum, and Gold. Winning service providers were classified in one of the levels according to the number of votes they received. There is no category winner, so multiple service providers in the same industry can attain the same level if they receive similar vote totals.*

*Florida Community Association Journal is excited to present these winning service providers, who were selected by you, as those companies that work primarily with community associations and do it well!*
